Where a place stands is mostly about the place

Variance of log(1 + yearly mentions), 1,596 places x 116 years (1910 to 2025), split into parts; 95% bootstrap intervals

52.9%	18.3%	7.3%	0.3%	21.1%	0.05%
The place itself (permanent)	The place's decade (slow rises and falls)	The decade (for every place)	The year	Year to year noise within a decade	By-elections and disasters
[46.2 to 58.7]	[16.0 to 20.8]	[6.3 to 8.4]	[0.3 to 0.4]	[18.3 to 24.3]	[0.03 to 0.08]

Data: Hansard via the UK Parliament API (Open Parliament Licence v3.0), "in <place>" contributions, House of Commons
